1. Claims 1-25 are rejected under 35 U.S.C. 112, second paragraph for undue multiplicity.

With the amendment of 20 August 2004, the case now has 6 active independent claims and 25 claims total. All of these claims are directed to a single, simple tool, namely the rotary cutting tool have a specific bit.

The Examiner acknowledges that the Applicant needs and deserves to be able to draft claims of varying scope to afford him the the best protection. However, 6 independent claims and 25 claims total, all directed to one simple tool, each with it's own shades of meaning and possible interpretations, creates too much chance for confusion and error.

The office and the Examiner very much want to do a good job on this case, but if 25 claims are processed, it is deemed that the Examiner, the Quality Reviewers, the Board and the Public will have a high chance of confusion and error.

Furthermore, the fairly simple concept of a rotary cutting tool have a specific bit does not warrant 25 claims. Such a concept could be covered with significantly less claims. The Examiner deems that 3 independent claims, and up to 13 dependent (non-multiply-dependent) claims would more than suffice to cover this concept.

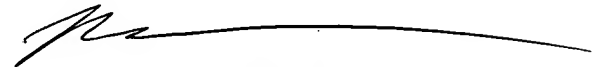

In response hereto, Applicant should elect up to 3 independent claims and up to 13 dependent claims for further prosecutions. See MPEP 2173.05(n). It is noted that Applicant need not cancel the non-elected claims at this time.
